Interior Regional Housing Authority

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Alatna

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Alatna
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Alatna
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Alatna

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Alatna
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

1. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Alatna ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Alatna
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 33

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Alatna
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 70

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Alatna
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**14**
AIAN households with annual income less than 30% of median income:	**0**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**4**
AIAN households which are overcrowded or without kitchen or plumbing:	**10**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**8**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Alatna
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Allakaket

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10

Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Allakaket
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

3. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
4. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Allakaket
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Allakaket

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Allakaket
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

10. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
11. Trust lands;
12. Department of the Interior Near-Reservation Service Areas;
13. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
14. Congressionally Mandated Service Areas;
15. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
16. Tribal Designated Statistical Areas (TDSAs);
17. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
18. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Allakaket ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Allakaket
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 129

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Allakaket
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 257

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Allakaket
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**148**
AIAN households with annual income less than 30% of median income:	**25**
AIAN households with annual income between 30% and 50% of median income:	**20**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**50**
AIAN households with housing cost burden greater than 50% of annual income:	**10**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**45**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Allakaket
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$436,898
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$2,717
Preliminary Current Year Allocation Estimate:	**$434,181**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$434,181**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$434,181**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Anvik

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Anvik
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

5. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
6. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Anvik
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Anvik

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Anvik
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

19. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
20. Trust lands;
21. Department of the Interior Near-Reservation Service Areas;
22. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
23. Congressionally Mandated Service Areas;
24. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
25. Tribal Designated Statistical Areas (TDSAs);
26. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
27. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Anvik ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Anvik
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 96

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Anvik
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 248

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Anvik
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**62**
AIAN households with annual income less than 30% of median income:	**4**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**10**
AIAN households which are overcrowded or without kitchen or plumbing:	**15**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**18**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Anvik
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$114,785
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$46,836
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,005
Preliminary Current Year Allocation Estimate:	**$160,616**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$160,616**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$160,616**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Beaver

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Beaver
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

7. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
8. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Beaver
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Beaver

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Beaver
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

28. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
29. Trust lands;
30. Department of the Interior Near-Reservation Service Areas;
31. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
32. Congressionally Mandated Service Areas;
33. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
34. Tribal Designated Statistical Areas (TDSAs);
35. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
36. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Beaver ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Beaver
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 239

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Beaver
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 246

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Beaver
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**46**
AIAN households with annual income less than 30% of median income:	**15**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**20**
AIAN households which are overcrowded or without kitchen or plumbing:	**35**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**39**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Beaver
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$255,210
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$24,641
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,434
Preliminary Current Year Allocation Estimate:	**$229,135**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$229,135**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$229,135**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Birch Creek

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Birch Creek
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

9. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
10. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Birch Creek
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Birch Creek

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Birch Creek
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

37. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
38. Trust lands;
39. Department of the Interior Near-Reservation Service Areas;
40. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
41. Congressionally Mandated Service Areas;
42. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
43. Tribal Designated Statistical Areas (TDSAs);
44. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
45. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Birch Creek ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Birch Creek
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 28

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Birch Creek
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 84

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Birch Creek
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**31**
AIAN households with annual income less than 30% of median income:	**0**
AIAN households with annual income between 30% and 50% of median income:	**0**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**0**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**0**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Birch Creek
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Chalkyitsik

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Chalkyitsik
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

11. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
12. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Chalkyitsik
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Chalkyitsik

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Chalkyitsik
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

46. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
47. Trust lands;
48. Department of the Interior Near-Reservation Service Areas;
49. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
50. Congressionally Mandated Service Areas;
51. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
52. Tribal Designated Statistical Areas (TDSAs);
53. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
54. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Chalkyitsik ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Chalkyitsik
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 119

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Chalkyitsik
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 119

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Chalkyitsik
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**52**
AIAN households with annual income less than 30% of median income:	**10**
AIAN households with annual income between 30% and 50% of median income:	**10**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**35**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**20**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Chalkyitsik
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$241,270
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$4,402
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,473
Preliminary Current Year Allocation Estimate:	**$235,396**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$235,396**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$235,396**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Circle

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Circle
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

13. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
14. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Circle
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Circle

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Circle
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

55. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
56. Trust lands;
57. Department of the Interior Near-Reservation Service Areas;
58. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
59. Congressionally Mandated Service Areas;
60. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
61. Tribal Designated Statistical Areas (TDSAs);
62. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
63. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Circle ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.96%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Circle
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 182

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Circle
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 182

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Circle
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**83**
AIAN households with annual income less than 30% of median income:	**8**
AIAN households with annual income between 30% and 50% of median income:	**8**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**8**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**16**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Circle
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Dot Lake

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Dot Lake
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

15. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
16. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Dot Lake
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Dot Lake

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,250**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Dot Lake
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

64. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
65. Trust lands;
66. Department of the Interior Near-Reservation Service Areas;
67. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
68. Congressionally Mandated Service Areas;
69. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
70. Tribal Designated Statistical Areas (TDSAs);
71. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
72. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Dot Lake ANVSA-Southeast Fairbanks Census Area,Alaska	0.63%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Dot Lake
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 22

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Dot Lake
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 137

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Dot Lake
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**17**
AIAN households with annual income less than 30% of median income:	**0**
AIAN households with annual income between 30% and 50% of median income:	**0**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**0**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**0**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Dot Lake
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Doyon, Ltd.

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Doyon, Ltd.
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

17. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
18. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Project Number	Low Rent	Mutual Help	TurnKey III	In Development	DOFA
AK06B007031	15	0	0	0	11/30/1992
AK94B007044	6	0	0	0	5/31/1998

Doyon, Ltd.
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Doyon, Ltd.

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	**$762**
Fair Market Rent (FMR):	**$1,669**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Doyon, Ltd.
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

73. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
74. Trust lands;
75. Department of the Interior Near-Reservation Service Areas;
76. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
77. Congressionally Mandated Service Areas;
78. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
79. Tribal Designated Statistical Areas (TDSAs);
80. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
81. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Canyon Village ANVSA-Yukon-Koyukuk Census Area,Alaska+	-5.96%
Lake Minchumina ANVSA-Yukon-Koyukuk Census Area,Alaska+	-5.96%
Balance - Doyon Alaska Native Regional Corporation, Alaska+	-1.09%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment

levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Doyon, Ltd.
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

Northway

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 6,971

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Doyon, Ltd.
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 6,971

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Doyon, Ltd.
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	***13,942**
AIAN households with annual income less than 30% of median income:	**528**
AIAN households with annual income between 30% and 50% of median income:	**476**
AIAN households with annual income between 50% and 80% of median income:	**566**
AIAN households which are overcrowded or without kitchen or plumbing:	**487**
AIAN households with housing cost burden greater than 50% of annual income:	**432**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**1,564**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Doyon, Ltd.
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$486,787
Needs Component[3]:	$7,371,688
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$836,918
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$43,802
Preliminary Current Year Allocation Estimate:	**$8,651,590**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$8,651,590**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$8,651,590**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Eagle

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Eagle
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

19. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
20. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Eagle
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Eagle

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,250**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Eagle
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

82. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
83. Trust lands;
84. Department of the Interior Near-Reservation Service Areas;
85. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
86. Congressionally Mandated Service Areas;
87. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
88. Tribal Designated Statistical Areas (TDSAs);
89. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
90. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Eagle ANVSA-Southeast Fairbanks Census Area,Alaska	0.63%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Eagle
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 30

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Eagle
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 113

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Eagle
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**34**
AIAN households with annual income less than 30% of median income:	**10**
AIAN households with annual income between 30% and 50% of median income:	**0**
AIAN households with annual income between 50% and 80% of median income:	**4**
AIAN households which are overcrowded or without kitchen or plumbing:	**8**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**14**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Eagle
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Evansville (Bettles Field)

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Evansville (Bettles Field)
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

21. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
22. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Evansville (Bettles Field)
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Evansville (Bettles Field)

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Evansville (Bettles Field)
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

91. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;
92. Trust lands;
93. Department of the Interior Near-Reservation Service Areas;
94. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
95. Congressionally Mandated Service Areas;
96. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
97. Tribal Designated Statistical Areas (TDSAs);
98. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
99. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Evansville ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Evansville (Bettles Field)
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 22

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Evansville (Bettles Field)
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 22

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Evansville (Bettles Field)
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**9**
AIAN households with annual income less than 30% of median income:	**0**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**0**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**4**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Evansville (Bettles Field)
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Grayling (Hokikachuk)

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Grayling (Hokikachuk)
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

23. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
24. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Grayling (Hokikachuk)
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Grayling (Hokikachuk)

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Grayling (Hokikachuk) Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

100. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

101. Trust lands;

102. Department of the Interior Near-Reservation Service Areas;

103. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

104. Congressionally Mandated Service Areas;

105. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

106. Tribal Designated Statistical Areas (TDSAs);

107. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

108. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Grayling ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Grayling (Hokikachuk)
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 171

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Grayling (Hokikachuk)
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 403

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Grayling (Hokikachuk)
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**186**
AIAN households with annual income less than 30% of median income:	**20**
AIAN households with annual income between 30% and 50% of median income:	**15**
AIAN households with annual income between 50% and 80% of median income:	**15**
AIAN households which are overcrowded or without kitchen or plumbing:	**35**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**50**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Grayling (Hokikachuk)
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$314,209
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,954
Preliminary Current Year Allocation Estimate:	**$312,255**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$312,255**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$312,255**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Healy Lake

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Healy Lake
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

25. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
26. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Healy Lake
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Healy Lake

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,250**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Healy Lake
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

109. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

110. Trust lands;

111. Department of the Interior Near-Reservation Service Areas;

112. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

113. Congressionally Mandated Service Areas;

114. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

115. Tribal Designated Statistical Areas (TDSAs);

116. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

117. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Healy Lake ANVSA-Southeast Fairbanks Census Area,Alaska	-0.49%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Healy Lake
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 27

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Healy Lake
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 34

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Healy Lake
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**21**
AIAN households with annual income less than 30% of median income:	**4**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**4**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**8**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Healy Lake
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Holy Cross

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Holy Cross
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

27. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
28. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Holy Cross
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Holy Cross

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Holy Cross
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

118. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

119. Trust lands;

120. Department of the Interior Near-Reservation Service Areas;

121. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

122. Congressionally Mandated Service Areas;

123. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

124. Tribal Designated Statistical Areas (TDSAs);

125. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

126. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Holy Cross ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Holy Cross
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 219

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Holy Cross
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 528

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Holy Cross
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**141**
AIAN households with annual income less than 30% of median income:	**20**
AIAN households with annual income between 30% and 50% of median income:	**30**
AIAN households with annual income between 50% and 80% of median income:	**15**
AIAN households which are overcrowded or without kitchen or plumbing:	**40**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**65**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Holy Cross
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$365,838
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$18,850
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$2,158
Preliminary Current Year Allocation Estimate:	**$344,829**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$344,829**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$344,829**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Hughes

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Hughes
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

29. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
30. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Hughes
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Hughes

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Hughes
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

127. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

128. Trust lands;

129. Department of the Interior Near-Reservation Service Areas;

130. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

131. Congressionally Mandated Service Areas;

132. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

133. Tribal Designated Statistical Areas (TDSAs);

134. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

135. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Hughes ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Hughes
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 61

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Hughes
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 139

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Hughes
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**76**
AIAN households with annual income less than 30% of median income:	**10**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**4**
AIAN households which are overcrowded or without kitchen or plumbing:	**4**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**18**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Hughes
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$93,080
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$35,577
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$800
Preliminary Current Year Allocation Estimate:	**$127,857**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$127,857**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$127,857**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Huslia

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Huslia
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

31. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
32. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Huslia
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Huslia

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Huslia
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

136. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

137. Trust lands;

138. Department of the Interior Near-Reservation Service Areas;

139. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

140. Congressionally Mandated Service Areas;

141. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

142. Tribal Designated Statistical Areas (TDSAs);

143. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

144. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Huslia ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Huslia
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 274

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Huslia
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 609

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Huslia
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**277**
AIAN households with annual income less than 30% of median income:	**15**
AIAN households with annual income between 30% and 50% of median income:	**10**
AIAN households with annual income between 50% and 80% of median income:	**30**
AIAN households which are overcrowded or without kitchen or plumbing:	**25**
AIAN households with housing cost burden greater than 50% of annual income:	**10**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**55**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Huslia
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$328,371
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$7,769
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$2,090
Preliminary Current Year Allocation Estimate:	**$334,049**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$334,049**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$334,049**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Kaltag

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

E-mail: IHBGformula@firstpic.org

Kaltag
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

33. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
34. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Kaltag
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Kaltag

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Kaltag
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

145. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

146. Trust lands;

147. Department of the Interior Near-Reservation Service Areas;

148. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

149. Congressionally Mandated Service Areas;

150. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

151. Tribal Designated Statistical Areas (TDSAs);

152. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

153. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Kaltag ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Kaltag
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 194

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Kaltag
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 404

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Kaltag
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**131**
AIAN households with annual income less than 30% of median income:	**20**
AIAN households with annual income between 30% and 50% of median income:	**20**
AIAN households with annual income between 50% and 80% of median income:	**10**
AIAN households which are overcrowded or without kitchen or plumbing:	**20**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**50**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Kaltag
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$238,274
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$30,457
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,292
Preliminary Current Year Allocation Estimate:	**$206,525**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$206,525**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$206,525**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Koyukuk

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Koyukuk
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

35. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
36. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Koyukuk
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Koyukuk

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Koyukuk
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

154. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

155. Trust lands;

156. Department of the Interior Near-Reservation Service Areas;

157. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

158. Congressionally Mandated Service Areas;

159. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

160. Tribal Designated Statistical Areas (TDSAs);

161. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

162. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Koyukuk ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Koyukuk
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 92

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Koyukuk
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 280

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Koyukuk
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**97**
AIAN households with annual income less than 30% of median income:	**10**
AIAN households with annual income between 30% and 50% of median income:	**10**
AIAN households with annual income between 50% and 80% of median income:	**4**
AIAN households which are overcrowded or without kitchen or plumbing:	**35**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**24**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Koyukuk
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$252,270
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$2,288
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,555
Preliminary Current Year Allocation Estimate:	**$248,428**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$248,428**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$248,428**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Manley Hot Springs

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Manley Hot Springs
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

37. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
38. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Manley Hot Springs
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Manley Hot Springs

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Manley Hot Springs
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

163. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

164. Trust lands;

165. Department of the Interior Near-Reservation Service Areas;

166. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

167. Congressionally Mandated Service Areas;

168. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

169. Tribal Designated Statistical Areas (TDSAs);

170. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

171. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Manley Hot Springs ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.96%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Manley Hot Springs
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 17

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Manley Hot Springs
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 81

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Manley Hot Springs
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**113**
AIAN households with annual income less than 30% of median income:	**0**
AIAN households with annual income between 30% and 50% of median income:	**0**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**8**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**0**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Manley Hot Springs
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the McGrath

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

McGrath
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

39. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
40. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

McGrath
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

McGrath

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

McGrath
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

172. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

173. Trust lands;

174. Department of the Interior Near-Reservation Service Areas;

175. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

176. Congressionally Mandated Service Areas;

177. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

178. Tribal Designated Statistical Areas (TDSAs);

179. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

180. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
McGrath ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

McGrath
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 176

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

McGrath
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 456

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

McGrath
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**169**
AIAN households with annual income less than 30% of median income:	**10**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**15**
AIAN households which are overcrowded or without kitchen or plumbing:	**10**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**29**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

McGrath
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$153,175
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$5,061
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$921
Preliminary Current Year Allocation Estimate:	**$147,192**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$147,192**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$147,192**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Minto

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Minto
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

41. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
42. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Minto
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Minto

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Minto
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

181. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

182. Trust lands;

183. Department of the Interior Near-Reservation Service Areas;

184. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

185. Congressionally Mandated Service Areas;

186. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

187. Tribal Designated Statistical Areas (TDSAs);

188. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

189. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Minto ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Minto
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 237

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Minto
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 424

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Minto
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**137**
AIAN households with annual income less than 30% of median income:	**15**
AIAN households with annual income between 30% and 50% of median income:	**10**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**25**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**25**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Minto
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$212,214
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$1,516
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,329
Preliminary Current Year Allocation Estimate:	**$212,402**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$212,402**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$212,402**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Nenana

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

E-mail: IHBGformula@firstpic.org

Nenana
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

43. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
44. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Nenana
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Nenana

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Nenana
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

190. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

191. Trust lands;

192. Department of the Interior Near-Reservation Service Areas;

193. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

194. Congressionally Mandated Service Areas;

195. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

196. Tribal Designated Statistical Areas (TDSAs);

197. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

198. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Nenana ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.96%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Nenana
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 165

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Nenana
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 717

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Nenana
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**149**
AIAN households with annual income less than 30% of median income:	**19**
AIAN households with annual income between 30% and 50% of median income:	**30**
AIAN households with annual income between 50% and 80% of median income:	**8**
AIAN households which are overcrowded or without kitchen or plumbing:	**14**
AIAN households with housing cost burden greater than 50% of annual income:	**14**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**42**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Nenana
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$216,252
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$18,953
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,227
Preliminary Current Year Allocation Estimate:	**$196,072**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$196,072**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$196,072**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Nikolai

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

E-mail: IHBGformula@firstpic.org

Nikolai
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

45. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
46. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Nikolai
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Nikolai

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Nikolai
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

199. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

200. Trust lands;

201. Department of the Interior Near-Reservation Service Areas;

202. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

203. Congressionally Mandated Service Areas;

204. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

205. Tribal Designated Statistical Areas (TDSAs);

206. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

207. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Nikolai ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.96%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Nikolai
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 81

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Nikolai
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 167

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Nikolai
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**76**
AIAN households with annual income less than 30% of median income:	**30**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**10**
AIAN households which are overcrowded or without kitchen or plumbing:	**30**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**44**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Nikolai
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$249,950
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$17,813
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,444
Preliminary Current Year Allocation Estimate:	**$230,694**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$230,694**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$230,694**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Northway

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Northway
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

47. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
48. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Northway
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Northway

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,663**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Northway
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

208. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

209. Trust lands;

210. Department of the Interior Near-Reservation Service Areas;

211. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

212. Congressionally Mandated Service Areas;

213. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

214. Tribal Designated Statistical Areas (TDSAs);

215. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

216. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Northway ANVSA-Southeast Fairbanks Census Area,Alaska+	0.63%
Balance - Doyon Alaska Native Regional Corporation, AK+	-1.09%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Northway
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

Doyon, Ltd.

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 199

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Northway
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 470

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Northway
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**402**
AIAN households with annual income less than 30% of median income:	**15**
AIAN households with annual income between 30% and 50% of median income:	**14**
AIAN households with annual income between 50% and 80% of median income:	**16**
AIAN households which are overcrowded or without kitchen or plumbing:	**14**
AIAN households with housing cost burden greater than 50% of annual income:	**12**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**45**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Northway
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$213,747
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$17,676
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,439
Preliminary Current Year Allocation Estimate:	**$229,984**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$229,984**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$229,984**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Ruby

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Ruby
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

49. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
50. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Ruby
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Ruby

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Ruby
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

217. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

218. Trust lands;

219. Department of the Interior Near-Reservation Service Areas;

220. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

221. Congressionally Mandated Service Areas;

222. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

223. Tribal Designated Statistical Areas (TDSAs);

224. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

225. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Ruby ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Ruby
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 156

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Ruby
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 418

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Ruby
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**124**
AIAN households with annual income less than 30% of median income:	**10**
AIAN households with annual income between 30% and 50% of median income:	**20**
AIAN households with annual income between 50% and 80% of median income:	**10**
AIAN households which are overcrowded or without kitchen or plumbing:	**35**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**40**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Ruby
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$281,621
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$1,751
Preliminary Current Year Allocation Estimate:	**$279,870**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$279,870**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$279,870**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Shageluk

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Shageluk
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

51. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
52. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Shageluk
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Shageluk

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Shageluk
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

226. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

227. Trust lands;

228. Department of the Interior Near-Reservation Service Areas;

229. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

230. Congressionally Mandated Service Areas;

231. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

232. Tribal Designated Statistical Areas (TDSAs);

233. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

234. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Shageluk ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Shageluk
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 125

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Shageluk
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 249

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Shageluk
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**90**
AIAN households with annual income less than 30% of median income:	**4**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**10**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**8**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Shageluk
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$58,260
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$145,207**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$145,207**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$145,207**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Stevens Village

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Stevens Village
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

53. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
54. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Stevens Village
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Stevens Village

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Stevens Village
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

235. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

236. Trust lands;

237. Department of the Interior Near-Reservation Service Areas;

238. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

239. Congressionally Mandated Service Areas;

240. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

241. Tribal Designated Statistical Areas (TDSAs);

242. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

243. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Stevens Village ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Stevens Village
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 109

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Stevens Village
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 364

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Stevens Village
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**37**
AIAN households with annual income less than 30% of median income:	**0**
AIAN households with annual income between 30% and 50% of median income:	**0**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**0**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**0**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Stevens Village
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Takotna

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Takotna
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

55. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
56. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Takotna
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Takotna

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Takotna
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

244. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

245. Trust lands;

246. Department of the Interior Near-Reservation Service Areas;

247. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

248. Congressionally Mandated Service Areas;

249. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

250. Tribal Designated Statistical Areas (TDSAs);

251. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

252. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Takotna ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.96%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Takotna
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 21

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Takotna
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 42

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Takotna
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**22**
AIAN households with annual income less than 30% of median income:	**0**
AIAN households with annual income between 30% and 50% of median income:	**4**
AIAN households with annual income between 50% and 80% of median income:	**4**
AIAN households which are overcrowded or without kitchen or plumbing:	**8**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**8**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Takotna
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Tanacross

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Tanacross
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

57. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
58. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Tanacross
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Tanacross

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,250**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Tanacross
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

253. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

254. Trust lands;

255. Department of the Interior Near-Reservation Service Areas;

256. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

257. Congressionally Mandated Service Areas;

258. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

259. Tribal Designated Statistical Areas (TDSAs);

260. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

261. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Tanacross ANVSA-Southeast Fairbanks Census Area,Alaska	0.63%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Tanacross
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 124

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Tanacross
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 169

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Tanacross
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	**133**
AIAN households with annual income less than 30% of median income:	**4**
AIAN households with annual income between 30% and 50% of median income:	**14**
AIAN households with annual income between 50% and 80% of median income:	**4**
AIAN households which are overcrowded or without kitchen or plumbing:	**10**
AIAN households with housing cost burden greater than 50% of annual income:	**4**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**22**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Tanacross
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$106,207
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$7,689
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$613
Preliminary Current Year Allocation Estimate:	**$97,905**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$97,905**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$97,905**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Telida

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

E-mail: IHBGformula@firstpic.org

Telida
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

59. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
60. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Telida
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Telida

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,094**
Total Development Cost (TDC):	**$826,427**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Telida
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

262. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

263. Trust lands;

264. Department of the Interior Near-Reservation Service Areas;

265. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

266. Congressionally Mandated Service Areas;

267. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

268. Tribal Designated Statistical Areas (TDSAs);

269. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

270. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Telida ANVSA-Yukon-Koyukuk Census Area,Alaska	-5.98%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Telida
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 3

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Telida
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 2

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Telida
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**1**
AIAN households with annual income less than 30% of median income:	**0**
AIAN households with annual income between 30% and 50% of median income:	**0**
AIAN households with annual income between 50% and 80% of median income:	**0**
AIAN households which are overcrowded or without kitchen or plumbing:	**0**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**0**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Telida
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$86,947
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	$0
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	$0
Preliminary Current Year Allocation Estimate:	**$86,947**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$86,947**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$86,947**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public reporting burden for the collection of information is estimated to average 30 minutes. This includes the time for collecting, reviewing, and reporting the data. The information will be used to allocate funds under the IHBG program. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Indian Housing Block Grant Formula Data for the Tetlin

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2026. It also provides an estimate of the Tribe's FY 2026 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

The submission must be postmarked or faxed by **August 1, 2025**, for consideration in the FY 2026 allocation. Please postmark or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2025. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their

data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2026 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Should you wish to initiate a challenge to your Needs data for FY 2026, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR § 1000.315 and 24 CFR § 1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian Tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR § 1000.315 and 24 CFR § 1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2026 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR § 1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

Tetlin
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2025**, for inclusion in the FY 2026 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under the 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR § 1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR § 1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR § 1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or IHA provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR § 1000.318(b).

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2000[1], are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

61. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
62. If there is a subsequent homebuyer with a new MHOA, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

[1]All units in projects that reached DOFA prior to FY 2000 were previously removed from FCAS on an FRF for FY 2014 or later and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to ensure appropriate treatment.

Tetlin
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units:0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Tetlin

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.25%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Allowable Expense Level (AEL):	
Fair Market Rent (FMR):	**$1,250**
Total Development Cost (TDC):	**$777,590**

In accordance with 24 CFR § 1000.336(a)(7)(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2025. Please note that while HUD requires requests for formula changes to be submitted by August 1st, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Tetlin
Formula Area

In accordance with 24 CFR § 1000.302 Formula Area (1)…."Formula Areas are:"

271. Reservations for federally recognized Indian Tribes, as defined by the U.S. Census;

272. Trust lands;

273. Department of the Interior Near-Reservation Service Areas;

274. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);

275. Congressionally Mandated Service Areas;

276. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);

277. Tribal Designated Statistical Areas (TDSAs);

278. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and

279. Alaska formula areas described in 24 CFR § 1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it provides substantial housing services in accordance with 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2010 Census
Tetlin ANVSA-Southeast Fairbanks Census Area,Alaska	-0.49%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR § 1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2.** HUD will review this submission based on 24 CFR § 1000.302 Formula area (2) & (3) and 24 CFR § 1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR § 1000.302 substantial housing services (2).

Tetlin
Overlapping Formula Areas

Only for Tribes with a "+" next to the geographic area (see previous section on Formula Area)

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

HUD uses Bureau of Indian Affairs (BIA) estimates for Total Resident Service Area Indian Population (TRSAIP) to proportionately allocate Needs data to the affected Tribes.

The TRSAIP being used for your Tribe is: 109

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. HUD will only accept written correspondence from the BIA to correct TRSAIP figures (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

HUD recognizes that Tribes may be able to provide better data for overlapping areas. Therefore, HUD is requesting that each Tribe provides its Tribal Enrollment within each of the geographic areas described in the preceding section as overlapping.

If all Tribes in an overlapping area submit corrected information to HUD, HUD will then use this information to divide the funds for the affected area. Otherwise, HUD will continue to use the BIA TRSAIP estimates to make the allocations. On the form in Appendix C, list the overlapping geographic area (indicated earlier under the Formula Area section by a "+" next to the geographic area) and your Tribe's enrollment in the area.

Tetlin
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR § 1000.302(5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is an "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 281

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked or faxed by August 1 of this year.

Tetlin
Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2026 HUD will use the 5-year rolling average from 2017 to 2021 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2026 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian Tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor and the undercount adjustments used for your Formula Area are listed next to each Formula Area in the table listing your Tribe's Formula Area.

After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas, and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	**123**
AIAN households with annual income less than 30% of median income:	**30**
AIAN households with annual income between 30% and 50% of median income:	**10**
AIAN households with annual income between 50% and 80% of median income:	**4**
AIAN households which are overcrowded or without kitchen or plumbing:	**55**
AIAN households with housing cost burden greater than 50% of annual income:	**0**
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	**44**

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.

- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

As stated in PIH Notice 2017-14 (https://www.hud.gov/sites/documents/pih2017-14.pdf), HUD provides Tribes their Needs data for the following fiscal year in Attachment A, so that they may decide whether or not to submit a Census challenge. The data in Attachment A provides counts before the population cap is applied. The guidelines for submitting Census challenges are included in the HUD document *Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula* found here: https://www.hud.gov/sites/dfiles/OCHCO/documents/4119.pdf. You are strongly encouraged to contact the IHBG Formula Customer Service Center at the number above before you undertake a Census challenge. However, this fiscal year, Attachment A is not included as part of the Tribes' Formula Response Form.

Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2026, for consideration in computing the FY 2027 allocations. HUD does not have the most recent American Community Survey data published by Census in a form that is needed to calculate the IHBG formula allocations. As a result, the FY 2027 Needs data will be published and distributed when it is available. To provide Tribes and TDHEs with a comparable amount of time as they had in prior fiscal years to review their data, HUD is considering issuing a waiver extending the deadline for submitting the FY 2027 Needs data challenges to a later date. Tribes and TDHEs will be notified should the waiver be issued.

Tetlin
Preliminary Allocation Amount

(Based on an estimated $1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated $1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2026 appropriations.

FCAS Component[2]:	$0
Needs Component[3]:	$379,425
24 CFR § 1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source[4]:	-$39,358
24 CFR § 1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount[5]:	-$2,115
Preliminary Current Year Allocation Estimate:	**$337,952**
Adjustments for over- or under-funding in prior years[6]:	$0
Initial Allocation Estimate:	**$337,952**
24 CFR § 1000.342 Undisbursed Funds Adjustment[7]:	To be Determined
24 CFR § 1000.329 Minimum Allocation Adjustment[8]:	To be Determined
FY 2026 Final Allocation Estimate:	**$337,952**

[2]If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR § 1000.316(b)(2), which states that "for Indian Tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR § 1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR § 1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR § 1000.316(b)(1).

[3]The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR § 1000.328. The minimum allocation in any FY to an Indian Tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is $86,947. To be eligible for the minimum allocation, an Indian Tribe must receive less than $200,000 under the FCAS component of the IHBG Formula for the FY and must demonstrate the presence of any households at or below 80 percent of median income.

[4]In accordance with 24 CFR § 1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian Tribe's allocation under the Needs component of the formula is

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian Tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

[5] According to 24 CFR § 1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

[6] Adjustments refer to corrections made to prior year's formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

[7] In accordance with 24 CFR § 1000.342, Tribes with an initial allocation amount of $5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2026. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

[8] In accordance with 24 CFR § 1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of $3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.
