

Interior Regional Housing Authority

Indian Housing Block Grant Formula Data for the Alatna

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Alatna Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Alatna
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Alatna

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Alatna
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Alatna ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Alatna Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 33

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Alatna Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 70

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Alatna Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	14
AIAN households with annual income less than 30% of median income:	0
AIAN households with annual income between 30% and 50% of median income:	4
AIAN households with annual income between 50% and 80% of median income:	4
AIAN households which are overcrowded or without kitchen or plumbing:	15
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	8

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Alatna
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$94,453
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$605
Preliminary Current Year Allocation Estimate:	\$93,847
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$93,847
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$93,847

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Alatna

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	14	14		
AIAN households with annual income less than 30% of median income	0	0		
AIAN households with annual income between 30% and 50% of median income	4	4		
AIAN households with annual income between 50% and 80% of median income	4	4		
AIAN households which are overcrowded or without kitchen or plumbing	15	15		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

1. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
2. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
3. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808

Indian Housing Block Grant Formula Data for the Allakaket

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

**Allakaket
Formula Current Assisted Stock
Homeownership and Rental**

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Allakaket
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Allakaket

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Allakaket
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Allakaket ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Allakaket Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 129

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Allakaket Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 257

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

**Allakaket
Needs Data**

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	145
AIAN households with annual income less than 30% of median income:	30
AIAN households with annual income between 30% and 50% of median income:	20
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	50
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	50

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Allakaket
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$411,998
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$2,640
Preliminary Current Year Allocation Estimate:	\$409,358
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$409,358
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$409,358

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Allakaket**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	145	151		
AIAN households with annual income less than 30% of median income	30	30		
AIAN households with annual income between 30% and 50% of median income	10	10		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	45	45		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

4. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
5. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
6. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10

Indian Housing Block Grant Formula Data for the Anvik

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Anvik
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Anvik
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Anvik

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Anvik
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Anvik ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Anvik

Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 96

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Anvik Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 248

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Anvik Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	60
AIAN households with annual income less than 30% of median income:	4
AIAN households with annual income between 30% and 50% of median income:	0
AIAN households with annual income between 50% and 80% of median income:	10
AIAN households which are overcrowded or without kitchen or plumbing:	15
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	14

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Anvik
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$123,415
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$30,178
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$984
Preliminary Current Year Allocation Estimate:	\$152,608
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$152,608
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$152,608

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Anvik

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	60	64		
AIAN households with annual income less than 30% of median income	4	4		
AIAN households with annual income between 30% and 50% of median income	0	0		
AIAN households with annual income between 50% and 80% of median income	4	4		
AIAN households which are overcrowded or without kitchen or plumbing	15	15		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

7. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
8. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
9. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Beaver

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Beaver

Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Beaver
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Beaver

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Beaver
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Beaver ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Beaver Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 239

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Beaver Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 246

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Beaver Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	45
AIAN households with annual income less than 30% of median income:	10
AIAN households with annual income between 30% and 50% of median income:	10
AIAN households with annual income between 50% and 80% of median income:	15
AIAN households which are overcrowded or without kitchen or plumbing:	35
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	35

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Beaver
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$237,718
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$8,899
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,466
Preliminary Current Year Allocation Estimate:	\$227,353
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$227,353
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$227,353

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Beaver**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	45	45		
AIAN households with annual income less than 30% of median income	4	4		
AIAN households with annual income between 30% and 50% of median income	4	4		
AIAN households with annual income between 50% and 80% of median income	20	20		
AIAN households which are overcrowded or without kitchen or plumbing	35	35		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

10. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
11. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
12. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Birch Creek

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Birch Creek
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Birch Creek
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Birch Creek

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Birch Creek
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Birch Creek ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Birch Creek Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 28

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Birch Creek Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 84

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Birch Creek Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	30
AIAN households with annual income less than 30% of median income:	0
AIAN households with annual income between 30% and 50% of median income:	0
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	0
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	0

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Birch Creek
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$86,947
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	\$0
Preliminary Current Year Allocation Estimate:	\$86,947
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$86,947
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$86,947

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Birch Creek**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	30	31		
AIAN households with annual income less than 30% of median income	0	0		
AIAN households with annual income between 30% and 50% of median income	0	0		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	0	0		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

13. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
14. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
15. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Chalkyitsik

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Chalkyitsik Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Chalkyitsik
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Chalkyitsik

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

Chalkyitsik Formula Area

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Chalkyitsik ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Chalkyitsik Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 119

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Chalkyitsik Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 119

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Chalkyitsik Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	51
AIAN households with annual income less than 30% of median income:	4
AIAN households with annual income between 30% and 50% of median income:	15
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	30
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	19

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Chalkyitsik
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$184,837
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$1,590
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,174
Preliminary Current Year Allocation Estimate:	\$182,073
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$182,073
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$182,073

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Chalkyitsik**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	51	53		
AIAN households with annual income less than 30% of median income	4	8		
AIAN households with annual income between 30% and 50% of median income	15	15		
AIAN households with annual income between 50% and 80% of median income	4	4		
AIAN households which are overcrowded or without kitchen or plumbing	35	39		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

16. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
17. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
18. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Indian Housing Block Grant Formula Data for the Circle

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Circle
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Circle
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Circle

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Circle
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Circle ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.51%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Circle Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 182

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Circle
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 182

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

**Circle
Needs Data**

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	82
AIAN households with annual income less than 30% of median income:	14
AIAN households with annual income between 30% and 50% of median income:	8
AIAN households with annual income between 50% and 80% of median income:	4
AIAN households which are overcrowded or without kitchen or plumbing:	19
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	26

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

Circle
Preliminary Allocation Amount

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$131,172
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$841
Preliminary Current Year Allocation Estimate:	\$130,332
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$130,332
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$130,332

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Circle**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	82	82		
AIAN households with annual income less than 30% of median income	10	14		
AIAN households with annual income between 30% and 50% of median income	4	8		
AIAN households with annual income between 50% and 80% of median income	4	4		
AIAN households which are overcrowded or without kitchen or plumbing	15	19		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

19. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
20. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
21. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Indian Housing Block Grant Formula Data for the Dot Lake

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Dot Lake Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Dot Lake
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Dot Lake

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,313

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Dot Lake
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Dot Lake ANVSA-Southeast Fairbanks Census Area, Alaska	-3.62%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Dot Lake Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 22

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Dot Lake Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 137

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Dot Lake Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	16
AIAN households with annual income less than 30% of median income:	0
AIAN households with annual income between 30% and 50% of median income:	0
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	0
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	0

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Dot Lake
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$86,947
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	\$0
Preliminary Current Year Allocation Estimate:	\$86,947
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$86,947
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$86,947

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Dot Lake**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	12	16		
AIAN households with annual income less than 30% of median income	0	0		
AIAN households with annual income between 30% and 50% of median income	0	0		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	0	0		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

22. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
23. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
24. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Doyon, Ltd.

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Doyon, Ltd.
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American ProgramsOMB Control No. 2577-0218
(exp. 01/31/2027)

Project Number	Low Rent	Mutual Help	TurnKey III	In Development	DOFA
AK06B007031	15	0	0	0	11/30/1992
AK94B007044	6	0	0	0	5/31/1998

Doyon, Ltd.
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Doyon, Ltd.**Adjustment Factors****Inflation Rate Factor**

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):	\$762
Fair Market Rent (FMR):	\$1,676
Total Development Cost (TDC):	\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Doyon, Ltd.
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Canyon Village ANVSA-Yukon-Koyukuk Census Area, Alaska+	-7.51%
Lake Minchumina ANVSA-Yukon-Koyukuk Census Area, Alaska+	-7.51%
Balance - Doyon Alaska Native Regional Corporation, Alaska+	-0.40%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment

FY 2027 Formula Response Form

levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302
substantial housing services (2).

Doyon, Ltd.
Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

Northway

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 6,971

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Doyon, Ltd.
Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 6,971

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

**Doyon, Ltd.
Needs Data**

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	*13,942
AIAN households with annual income less than 30% of median income:	727
AIAN households with annual income between 30% and 50% of median income:	497
AIAN households with annual income between 50% and 80% of median income:	807
AIAN households which are overcrowded or without kitchen or plumbing:	535
AIAN households with housing cost burden greater than 50% of annual income:	362
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	2,026

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

Doyon, Ltd.
Preliminary Allocation Amount

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$501,916
Needs Component ³ :	\$7,717,807
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$37,513
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$42,330
Preliminary Current Year Allocation Estimate:	\$8,214,907
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$8,214,907
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$8,214,907

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Doyon, Ltd.**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	8,035	14,185		
AIAN households with annual income less than 30% of median income	532	769		
AIAN households with annual income between 30% and 50% of median income	291	607		
AIAN households with annual income between 50% and 80% of median income	538	894		
AIAN households which are overcrowded or without kitchen or plumbing	315	508		
AIAN households with housing cost burden greater than 50% of annual income	265	347		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

25. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
26. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
27. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Eagle

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Eagle
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Eagle
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Eagle

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,313

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Eagle
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Eagle ANVSA-Southeast Fairbanks Census Area, Alaska	-3.62%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Eagle Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 30

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Eagle Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 113

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Eagle Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	33
AIAN households with annual income less than 30% of median income:	10
AIAN households with annual income between 30% and 50% of median income:	8
AIAN households with annual income between 50% and 80% of median income:	4
AIAN households which are overcrowded or without kitchen or plumbing:	8
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	22

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

Eagle
Preliminary Allocation Amount

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$88,886
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$570
Preliminary Current Year Allocation Estimate:	\$88,317
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$88,317
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$88,317

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Eagle**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	28	33		
AIAN households with annual income less than 30% of median income	0	4		
AIAN households with annual income between 30% and 50% of median income	4	8		
AIAN households with annual income between 50% and 80% of median income	4	4		
AIAN households which are overcrowded or without kitchen or plumbing	4	4		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

28. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
29. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
30. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Evansville (Bettles Field)

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

**Evansville (Bettles Field)
Formula Current Assisted Stock
Homeownership and Rental**

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Evansville (Bettles Field)
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Evansville (Bettles Field)

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Evansville (Bettles Field)
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Evansville ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Evansville (Bettles Field) Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 22

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

**Evansville (Bettles Field)
Tribal Enrollment & Formula Area Population Cap**

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 22

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

**Evansville (Bettles Field)
Needs Data**

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	9
AIAN households with annual income less than 30% of median income:	0
AIAN households with annual income between 30% and 50% of median income:	0
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	0
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	0

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Evansville (Bettles Field)
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$86,947
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	\$0
Preliminary Current Year Allocation Estimate:	\$86,947
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$86,947
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$86,947

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Evansville (Bettles Field)**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	9	11		
AIAN households with annual income less than 30% of median income	0	0		
AIAN households with annual income between 30% and 50% of median income	0	0		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	0	0		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

31. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
32. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
33. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Indian Housing Block Grant Formula Data for the Grayling (Hokikachuk)

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Grayling (Hokikachuk) Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Grayling (Hokikachuk)
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Grayling (Hokikachuk)

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Grayling (Hokikachuk)
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Grayling ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Grayling (Hokikachuk) Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 171

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Grayling (Hokikachuk) Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 403

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Grayling (Hokikachuk) Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	182
AIAN households with annual income less than 30% of median income:	25
AIAN households with annual income between 30% and 50% of median income:	10
AIAN households with annual income between 50% and 80% of median income:	15
AIAN households which are overcrowded or without kitchen or plumbing:	40
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	50

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Grayling (Hokikachuk)
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$328,883
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$2,108
Preliminary Current Year Allocation Estimate:	\$326,775
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$326,775
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$326,775

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Grayling (Hokikachuk)**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	182	200		
AIAN households with annual income less than 30% of median income	10	10		
AIAN households with annual income between 30% and 50% of median income	15	15		
AIAN households with annual income between 50% and 80% of median income	15	15		
AIAN households which are overcrowded or without kitchen or plumbing	30	30		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

34. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
35. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
36. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Healy Lake

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

**Healy Lake
Formula Current Assisted Stock
Homeownership and Rental**

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Healy Lake
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Healy Lake

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,313

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Healy Lake
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Healy Lake ANVSA-Southeast Fairbanks Census Area, Alaska	-2.81%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Healy Lake Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 27

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Healy Lake Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 34

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Healy Lake Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	21
AIAN households with annual income less than 30% of median income:	10
AIAN households with annual income between 30% and 50% of median income:	4
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	4
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	14

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Healy Lake
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$86,947
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	\$0
Preliminary Current Year Allocation Estimate:	\$86,947
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$86,947
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$86,947

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Healy Lake**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	21	21		
AIAN households with annual income less than 30% of median income	10	10		
AIAN households with annual income between 30% and 50% of median income	4	4		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	4	4		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

37. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
38. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
39. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Holy Cross

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Holy Cross Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

**Holy Cross
Formula Current Assisted Stock
Section 8**

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Holy Cross**Adjustment Factors****Inflation Rate Factor**

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Holy Cross
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Holy Cross ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Holy Cross Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 219

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Holy Cross Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 528

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Holy Cross Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	138
AIAN households with annual income less than 30% of median income:	30
AIAN households with annual income between 30% and 50% of median income:	25
AIAN households with annual income between 50% and 80% of median income:	10
AIAN households which are overcrowded or without kitchen or plumbing:	50
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	65

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Holy Cross
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$405,902
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$6,808
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$2,558
Preliminary Current Year Allocation Estimate:	\$396,537
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$396,537
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$396,537

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Holy Cross**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	138	165		
AIAN households with annual income less than 30% of median income	35	39		
AIAN households with annual income between 30% and 50% of median income	15	15		
AIAN households with annual income between 50% and 80% of median income	10	10		
AIAN households which are overcrowded or without kitchen or plumbing	45	49		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

40. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
41. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
42. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Hughes

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Hughes Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Hughes
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Hughes**Adjustment Factors****Inflation Rate Factor**

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Hughes
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Hughes ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Hughes Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 61

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Hughes

Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 139

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Hughes Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	75
AIAN households with annual income less than 30% of median income:	10
AIAN households with annual income between 30% and 50% of median income:	4
AIAN households with annual income between 50% and 80% of median income:	4
AIAN households which are overcrowded or without kitchen or plumbing:	4
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	18

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Hughes
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$93,022
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$22,297
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$739
Preliminary Current Year Allocation Estimate:	\$114,580
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$114,580
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$114,580

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Hughes

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	75	78		
AIAN households with annual income less than 30% of median income	10	10		
AIAN households with annual income between 30% and 50% of median income	4	4		
AIAN households with annual income between 50% and 80% of median income	4	4		
AIAN households which are overcrowded or without kitchen or plumbing	0	0		
AIAN households with housing cost burden greater than 50% of annual income	10	10		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

43. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
44. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
45. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Huslia

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Huslia
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Huslia
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Huslia

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Huslia
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Huslia ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.51%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Huslia

Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 274

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Huslia

Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 609

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Huslia Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	283
AIAN households with annual income less than 30% of median income:	10
AIAN households with annual income between 30% and 50% of median income:	4
AIAN households with annual income between 50% and 80% of median income:	25
AIAN households which are overcrowded or without kitchen or plumbing:	25
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	39

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

Huslia
Preliminary Allocation Amount

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$214,588
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,375
Preliminary Current Year Allocation Estimate:	\$213,213
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$213,213
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$213,213

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Huslia**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	272	283		
AIAN households with annual income less than 30% of median income	0	0		
AIAN households with annual income between 30% and 50% of median income	4	4		
AIAN households with annual income between 50% and 80% of median income	20	20		
AIAN households which are overcrowded or without kitchen or plumbing	20	20		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

46. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
47. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
48. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Kaltag

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Kaltag Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Kaltag
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Kaltag

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Kaltag
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Kaltag ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Kaltag Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 194

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Kaltag Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 404

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Kaltag Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	128
AIAN households with annual income less than 30% of median income:	10
AIAN households with annual income between 30% and 50% of median income:	25
AIAN households with annual income between 50% and 80% of median income:	10
AIAN households which are overcrowded or without kitchen or plumbing:	20
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	45

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Kaltag
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$196,839
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$10,999
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,191
Preliminary Current Year Allocation Estimate:	\$184,648
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$184,648
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$184,648

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Kaltag

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	128	144		
AIAN households with annual income less than 30% of median income	10	10		
AIAN households with annual income between 30% and 50% of median income	15	15		
AIAN households with annual income between 50% and 80% of median income	10	10		
AIAN households which are overcrowded or without kitchen or plumbing	15	15		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

49. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
50. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
51. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Indian Housing Block Grant Formula Data for the Koyukuk

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Koyukuk Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Koyukuk
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Koyukuk

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Koyukuk
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Koyukuk ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Koyukuk Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 92

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Koyukuk Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 280

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Koyukuk Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	95
AIAN households with annual income less than 30% of median income:	4
AIAN households with annual income between 30% and 50% of median income:	15
AIAN households with annual income between 50% and 80% of median income:	10
AIAN households which are overcrowded or without kitchen or plumbing:	45
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	29

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Koyukuk
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$275,541
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$826
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,760
Preliminary Current Year Allocation Estimate:	\$272,955
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$272,955
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$272,955

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Koyukuk**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	95	96		
AIAN households with annual income less than 30% of median income	4	4		
AIAN households with annual income between 30% and 50% of median income	15	15		
AIAN households with annual income between 50% and 80% of median income	15	15		
AIAN households which are overcrowded or without kitchen or plumbing	35	35		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

52. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
53. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
54. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Manley Hot Springs

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Manley Hot Springs Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

**Manley Hot Springs
Formula Current Assisted Stock
Section 8**

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Manley Hot Springs

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Manley Hot Springs
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Manley Hot Springs ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Manley Hot Springs Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 17

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Manley Hot Springs Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 81

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Manley Hot Springs Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	104
AIAN households with annual income less than 30% of median income:	0
AIAN households with annual income between 30% and 50% of median income:	0
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	0
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	0

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Manley Hot Springs
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$86,947
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	\$0
Preliminary Current Year Allocation Estimate:	\$86,947
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$86,947
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$86,947

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Manley Hot Springs**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	104	111		
AIAN households with annual income less than 30% of median income	0	0		
AIAN households with annual income between 30% and 50% of median income	0	0		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	0	0		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

55. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
56. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
57. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the McGrath

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

McGrath
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

McGrath
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

McGrath

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**McGrath
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
McGrath ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

McGrath Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 176

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

McGrath

Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 456

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

**McGrath
Needs Data**

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	165
AIAN households with annual income less than 30% of median income:	4
AIAN households with annual income between 30% and 50% of median income:	4
AIAN households with annual income between 50% and 80% of median income:	15
AIAN households which are overcrowded or without kitchen or plumbing:	15
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	23

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**McGrath
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$161,753
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$1,828
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,025
Preliminary Current Year Allocation Estimate:	\$158,900
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$158,900
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$158,900

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the McGrath

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	165	182		
AIAN households with annual income less than 30% of median income	4	8		
AIAN households with annual income between 30% and 50% of median income	4	4		
AIAN households with annual income between 50% and 80% of median income	15	19		
AIAN households which are overcrowded or without kitchen or plumbing	15	19		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

58. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
59. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
60. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Indian Housing Block Grant Formula Data for the Minto

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Minto

Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Minto
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Minto

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Minto
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Minto ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Minto

Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 237

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Minto

Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 424

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Minto Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	134
AIAN households with annual income less than 30% of median income:	10
AIAN households with annual income between 30% and 50% of median income:	15
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	15
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	25

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

Minto
Preliminary Allocation Amount

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$157,167
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,007
Preliminary Current Year Allocation Estimate:	\$156,160
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$156,160
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$156,160

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Minto**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	134	138		
AIAN households with annual income less than 30% of median income	10	10		
AIAN households with annual income between 30% and 50% of median income	4	4		
AIAN households with annual income between 50% and 80% of median income	10	40		
AIAN households which are overcrowded or without kitchen or plumbing	35	65		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

61. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
62. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
63. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Nenana

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Nenana

Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Nenana
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Nenana

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Nenana
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Nenana ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.51%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Nenana Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 165

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Nenana Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 717

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

**Nenana
Needs Data**

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	147
AIAN households with annual income less than 30% of median income:	24
AIAN households with annual income between 30% and 50% of median income:	25
AIAN households with annual income between 50% and 80% of median income:	14
AIAN households which are overcrowded or without kitchen or plumbing:	25
AIAN households with housing cost burden greater than 50% of annual income:	19
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	48

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Nenana
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$281,641
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$6,845
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,761
Preliminary Current Year Allocation Estimate:	\$273,035
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$273,035
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$273,035

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Nenana

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	143	147		
AIAN households with annual income less than 30% of median income	10	14		
AIAN households with annual income between 30% and 50% of median income	35	35		
AIAN households with annual income between 50% and 80% of median income	20	20		
AIAN households which are overcrowded or without kitchen or plumbing	10	20		
AIAN households with housing cost burden greater than 50% of annual income	10	14		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

64. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
65. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
66. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Indian Housing Block Grant Formula Data for the Nikolai

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Nikolai
Formula Current Assisted Stock
Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Nikolai
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Nikolai

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Nikolai
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Nikolai ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.51%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Nikolai Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 81

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Nikolai Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 167

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Nikolai Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	74
AIAN households with annual income less than 30% of median income:	25
AIAN households with annual income between 30% and 50% of median income:	4
AIAN households with annual income between 50% and 80% of median income:	4
AIAN households which are overcrowded or without kitchen or plumbing:	30
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	33

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Nikolai
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$224,995
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$6,433
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,401
Preliminary Current Year Allocation Estimate:	\$217,161
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$217,161
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$217,161

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Nikolai**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	70	74		
AIAN households with annual income less than 30% of median income	10	14		
AIAN households with annual income between 30% and 50% of median income	15	15		
AIAN households with annual income between 50% and 80% of median income	4	4		
AIAN households which are overcrowded or without kitchen or plumbing	10	14		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

67. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
68. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
69. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Indian Housing Block Grant Formula Data for the Northway

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Northway Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Northway
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Northway**Adjustment Factors****Inflation Rate Factor**

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,671

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Northway
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Northway ANVSA-Southeast Fairbanks Census Area, Alaska+	-3.62%
Balance - Doyon Alaska Native Regional Corporation, AK+	-0.40%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Northway Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

Doyon, Ltd.

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 199

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Northway Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 470

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Northway Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	405
AIAN households with annual income less than 30% of median income:	21
AIAN households with annual income between 30% and 50% of median income:	14
AIAN households with annual income between 50% and 80% of median income:	23
AIAN households which are overcrowded or without kitchen or plumbing:	16
AIAN households with housing cost burden greater than 50% of annual income:	11
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	59

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Northway
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$225,159
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$1,443
Preliminary Current Year Allocation Estimate:	\$223,716
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$223,716
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$223,716

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Northway**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	229	405		
AIAN households with annual income less than 30% of median income	15	22		
AIAN households with annual income between 30% and 50% of median income	8	17		
AIAN households with annual income between 50% and 80% of median income	15	26		
AIAN households which are overcrowded or without kitchen or plumbing	9	14		
AIAN households with housing cost burden greater than 50% of annual income	8	10		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe's Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

70. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
71. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
72. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Ruby

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Ruby

Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Ruby
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Ruby

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Ruby
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Ruby ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Ruby

Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 156

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Ruby

Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 418

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

**Ruby
Needs Data**

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	122
AIAN households with annual income less than 30% of median income:	20
AIAN households with annual income between 30% and 50% of median income:	20
AIAN households with annual income between 50% and 80% of median income:	15
AIAN households which are overcrowded or without kitchen or plumbing:	35
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	55

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Ruby
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$336,376
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$2,156
Preliminary Current Year Allocation Estimate:	\$334,221
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$334,221
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$334,221

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Ruby

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	122	126		
AIAN households with annual income less than 30% of median income	25	25		
AIAN households with annual income between 30% and 50% of median income	25	25		
AIAN households with annual income between 50% and 80% of median income	10	10		
AIAN households which are overcrowded or without kitchen or plumbing	40	40		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe’s Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you

FY 2027 Formula Response Form

and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

73. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
74. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
75. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Shageluk

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Shageluk Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Shageluk
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Shageluk

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Shageluk
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Shageluk ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Shageluk Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 125

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Shageluk Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 249

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Shageluk Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	89
AIAN households with annual income less than 30% of median income:	4
AIAN households with annual income between 30% and 50% of median income:	4
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	15
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	8

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Shageluk
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$95,588
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$43,243
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$890
Preliminary Current Year Allocation Estimate:	\$137,942
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$137,942
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$137,942

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Shageluk**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	89	92		
AIAN households with annual income less than 30% of median income	4	4		
AIAN households with annual income between 30% and 50% of median income	4	4		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	4	4		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe’s Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

76. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
77. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
78. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Stevens Village

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Stevens Village Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Stevens Village
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Stevens Village

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Stevens Village
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Stevens Village ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Stevens Village Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 109

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Stevens Village Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 364

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Stevens Village Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	36
AIAN households with annual income less than 30% of median income:	0
AIAN households with annual income between 30% and 50% of median income:	0
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	0
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	0

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Stevens Village
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$86,947
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	\$0
Preliminary Current Year Allocation Estimate:	\$86,947
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$86,947
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$86,947

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

**Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data
for the Stevens Village**

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	36	36		
AIAN households with annual income less than 30% of median income	0	0		
AIAN households with annual income between 30% and 50% of median income	0	0		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	0	0		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe’s Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

79. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
80. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
81. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Takotna

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Takotna

Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Takotna
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Takotna

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Takotna
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Takotna ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.51%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Takotna Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 21

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Takotna Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 42

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Takotna Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	21
AIAN households with annual income less than 30% of median income:	0
AIAN households with annual income between 30% and 50% of median income:	0
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	0
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	0

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Takotna
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$86,947
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	\$0
Preliminary Current Year Allocation Estimate:	\$86,947
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$86,947
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$86,947

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Takotna

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	15	21		
AIAN households with annual income less than 30% of median income	4	4		
AIAN households with annual income between 30% and 50% of median income	4	8		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	4	14		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe’s Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you

FY 2027 Formula Response Form

and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

82. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
83. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
84. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Tanacross

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Tanacross Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Tanacross
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Tanacross

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,313

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Tanacross
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Tanacross ANVSA-Southeast Fairbanks Census Area, Alaska	-3.62%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Tanacross Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 124

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Tanacross Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 169

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

**Tanacross
Needs Data**

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **multi-race data**. The Needs data are:

AIAN persons:	127
AIAN households with annual income less than 30% of median income:	4
AIAN households with annual income between 30% and 50% of median income:	8
AIAN households with annual income between 50% and 80% of median income:	4
AIAN households which are overcrowded or without kitchen or plumbing:	10
AIAN households with housing cost burden greater than 50% of annual income:	4
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	16

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

**Tanacross
Preliminary Allocation Amount**

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$91,638
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$2,777
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$569
Preliminary Current Year Allocation Estimate:	\$88,291
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$88,291
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$88,291

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Tanacross

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	122	127		
AIAN households with annual income less than 30% of median income	10	10		
AIAN households with annual income between 30% and 50% of median income	4	8		
AIAN households with annual income between 50% and 80% of median income	4	4		
AIAN households which are overcrowded or without kitchen or plumbing	15	15		
AIAN households with housing cost burden greater than 50% of annual income	0	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe’s Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

85. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
86. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
87. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Telida

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Telida

Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Telida
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Telida

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,126

Total Development Cost (TDC):

\$938,505

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Telida
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Telida ANVSA-Yukon-Koyukuk Census Area, Alaska	-7.85%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Telida

Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 3

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Telida

Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 2

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Telida Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	1
AIAN households with annual income less than 30% of median income:	0
AIAN households with annual income between 30% and 50% of median income:	0
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	0
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	0

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

Telida
Preliminary Allocation Amount

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$86,947
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	\$0
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	\$0
Preliminary Current Year Allocation Estimate:	\$86,947
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$86,947
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$86,947

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Telida

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	1	1		
AIAN households with annual income less than 30% of median income	0	0		
AIAN households with annual income between 30% and 50% of median income	0	0		
AIAN households with annual income between 50% and 80% of median income	0	0		
AIAN households which are overcrowded or without kitchen or plumbing	0	0		
AIAN households with housing cost burden greater than 50% of annual income	0	0		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe’s Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

88. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
89. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
90. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 21401
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Indian Housing Block Grant Formula Data for the Tetlin

This document provides notice to the Tribe and/or Tribally Designated Housing Entity (TDHE) of the data to be used in calculating its Indian Housing Block Grant (IHBG) program allocation for Fiscal Year (FY) 2027. It also provides an estimate of the Tribe's FY 2027 allocation.

Please carefully review your Tribe's data and report any changes and corrections to the IHBG Formula Customer Service Center as described below. All Tribes/TDHEs are responsible for reporting data changes and corrections. According to 24 CFR § 1000.315(b), the Formula Response Form (FRF) is the only mechanism that a recipient shall use to report changes to the number of Formula Current Assisted Stock (FCAS). In addition, Tribes/TDHEs should use the FRF to report changes and corrections to the following:

- Formula Area
- Overlapping Formula Areas
- Tribal Enrollment and Formula Area Population Cap

Submission Deadlines

Please postmark, email, or fax changes and corrections with appropriate supporting documentation to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY. For questions regarding appropriate documentation, please contact the IHBG Formula Customer Service Center at the address listed below.

The results of any successful changes to Fair Market Rent (FMR), Total Development Cost (TDC), and the U.S. Census Bureau Population Estimates data should also be submitted by August 1, 2026. Details on the procedures to be followed if you wish to challenge these data elements are contained in the Appendices to the most recent published document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" This document can be obtained from the IHBG Formula Customer Service Center or at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>.

The FRF also includes other data elements used to calculate the Needs component of the Formula. Tribes/TDHEs wishing to challenge these data elements should review the **Needs section** of this form. Each year, Tribes/TDHEs are reminded that March 30 is the deadline for the next FY's Census challenge. The Needs data in this document will include previously approved Census challenges, if still eligible for use in the FY 2027 allocation, as well as available Census data. If applicable, check the Needs section to verify that successful challenges have been incorporated. Needs data for FY 2028 is included in Attachment A of this form. Should you wish to initiate a challenge to your Needs data for FY 2028, please consult the guide, "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula.*" The guide outlines procedures for conducting a Census challenge.

Failure to Report

Please note that pursuant to 24 CFR §1000.315 and 24 CFR §1000.319, recipients are responsible for verifying and reporting changes to their FCAS on the FRF to ensure that data used for the IHBG Formula are accurate. Reporting shall be completed in accordance with requirements in subpart D and the FRF. If a recipient receives an overpayment of funds because it failed to report such changes on the FRF in a timely manner, the recipient shall be required to repay the funds within five fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation. A recipient will not be provided back funding for any units that the recipient failed to report on the FRF in a timely manner. HUD shall have three years from the date a FRF is sent out to take action against any recipient that fails to correct or make appropriate changes on that FRF. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring or other reviews.

The deadline for responding with changes to the data on the FRF is August 1. Any changes reported after the August 1 deadline are not timely under 24 CFR §1000.315 and 24 CFR §1000.319. Accordingly, no back funding is authorized based on changes reported after August 1; nor will untimely reported units be included in the FY 2027 allocation.

Appeals Process

Tribes/TDHEs may appeal HUD decisions regarding data used in the IHBG formula and HUD formula determinations in accordance with 24 CFR §1000.336(d).

Technical Assistance

Should you have questions, please contact the IHBG Formula Customer Service Center at:

101 Ridgely Avenue, Suite 10
Annapolis, MD 2141
Phone: 800-410-8808
Fax: 202-393-6411
E-mail: IHBGformula@firstpic.org

HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Tetlin

Formula Current Assisted Stock Homeownership and Rental

HUD records show your Tribe/TDHE having the following Formula Current Assisted Stock (FCAS) funded by 1937 Housing Act programs. Please compare the project numbers, number of units, type of units, and Date of Full Availability (DOFA) with your records. Then postmark, email, or fax any changes and corrections, including updated information, to the IHBG Formula Customer Service Center by **August 1, 2026**, for inclusion in the FY 2027 allocation. **Please note:** If a unit becomes ineligible as FCAS between the date in which you report and September 30, HUD will need to recover the over-funding that the recipient received for that unit unless the recipient submits an additional Appendix A1 before September 30 that indicates the unit's eligibility status.

The unit counts reported below include:

- Low Rent, Mutual Help and Turnkey III units funded under 1937 Housing Act (i.e., units that were subject to an Annual Contributions Contract (ACC)).
- Units converted prior to October 1, 1997, as the type of unit to which it was converted.
- Units converted on or after October 1, 1997, as the type of unit funded on the latest ACC.

The unit counts reported below do not include:

- Units built with NAHASDA, HOME, or ICDBG funds.
- Units built with BIA, State, or Tribal funds.
- Units built over the number specified in the original ACC for Projects with DOFA after October 1, 1997.
- Units not used as housing dwelling units, including units used for non-dwelling purposes and unoccupied units not being made available for occupancy.
- Units previously reported as having been conveyed, conveyance eligible (paid-off but not conveyed), or demolished.

A unit that is conveyance eligible will be removed from HUD's FCAS data when it becomes eligible for conveyance. If a legal impediment prevented the conveyance, the Tribe/TDHE needs to make reasonable efforts to overcome the legal impediment as required in 24 CFR §1000.318(b). When the unit is conveyed, it is up to the Tribe/TDHE to report to the IHBG Formula Customer Service Center when the unit is conveyed or when the 2-year time period is up, and to provide all necessary documentation for HUD to re-evaluate the unit to see if it remained eligible as FCAS beyond the conveyance eligibility date. If the Tribe/TDHE has demonstrated it made reasonable efforts to convey in the face of a legal impediment as required by 24 CFR §1000.318(b), then HUD will revise the FCAS data for the preceding years and calculate the appropriate adjustment pursuant to the formula at 24 CFR §1000.319. No homeownership unit will be considered FCAS 24 months after the date the unit became conveyance eligible, unless the Tribe, TDHE, or Indian Housing Authority (IHA) provides evidence from a third party, such as a court or state or federal government agency, documenting that a legal impediment continues to prevent conveyance, and assuming that the Tribe made reasonable efforts to overcome any existing legal impediments during the preceding 24 months in accordance with 24 CFR §1000.318(b).

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

Please note changes and corrections to the unit counts on the table below and also complete and submit appropriate forms as follows:

- Use **Appendix A1** to report units that are conveyance eligible or conveyed.
- Use **Appendix A2** to report changes due to DOFA of FCAS units.
- Use **Appendix A3** to report changes due to conversion of FCAS units.
- Use **Appendix A4** to report demolished and rebuilt FCAS units.
- Use **Appendix A5** to report all other FCAS changes.

NOTE: In accordance with Section 302(b)(1) of the *Native American Housing Assistance and Self-Determination Act (NAHASDA)*, 25 U.S.C. § 4152(b)(1), Mutual Help and Turnkey III units developed under the United States Housing Act of 1937 that are conveyed or eligible to be conveyed prior to October 1 of the calendar year immediately preceding the FY for which funds are provided cease to be eligible as FCAS beginning that FY unless the Tribe can demonstrate that the unit has not been conveyed for reasons beyond its control. By the terms of their Mutual Help and Occupancy Agreements (MHOA), such units are eligible for conveyance no later than 25 years from the inception of those agreements, which generally corresponds to the Date of Full Availability (DOFA). **Accordingly, all units in any project that reached its DOFA in FY 2001¹, are presumptively no longer considered FCAS, and HUD is removing them from its FCAS data for the Tribe in the table below as indicated with a (*).** If your Tribe believes that any of these units are still eligible for FCAS, please identify the project and unit number and provide the necessary information in accordance with the FRF as follows:

1. If the unit was converted to and is currently managed as a Low Rent (LR) unit, provide the information required in Appendix A3.
2. If there is a subsequent homebuyer, or the unit is still within the term of its lease-to-own agreement, please provide the information required in Appendix A5, including the date that the current agreement was signed and the termination date of the agreement.

Your Tribe has no Current Assisted Stock Projects

¹All units in projects that reached DOFA prior to FY 2001 were previously removed from FCAS on an FRF for FY 2014 or later, and are only listed on the FRF if the Tribe/TDHE submitted unit level information documenting continued eligibility. Unit eligibility will be re-challenged every three years to assure appropriate treatment.

Tetlin
Formula Current Assisted Stock
Section 8

Under the IHBG Formula, your Tribe's FCAS count includes the following Section 8 units:

Number of units: 0

By regulation, Section 8 units are counted under the IHBG formula after their contracts expire only if the Tribe/TDHE continues to manage the assistance in a manner similar to the Section 8 program.

If you no longer provide or operate an equivalent number of Section 8, please make corrections to the total above and on the table below.

Tetlin

Adjustment Factors

Inflation Rate Factor

Inflation rate is adjusted annually and is a national figure used to adjust the amount of subsidy for FCAS.

2.34%

Local Area Cost Adjustments

Allowable Expense Level (AEL), Fair Market Rent (FMR), and Total Development Cost (TDC) are used to adjust the amount of subsidy for FCAS to reflect local conditions. TDC is also used to adjust the Needs component to reflect local costs.

Annual Expense Level (AEL):

Fair Market Rent (FMR):

\$1,313

Total Development Cost (TDC):

\$862,823

In accordance with 24 CFR §1000.336(b), AEL cannot be challenged. However, instructions for challenging the FMR and TDC are provided in the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center. Tribes successfully challenging FMR and TDC data elements must submit the revised figures to the IHBG Formula Customer Service Center by August 1, 2026. Please note that while HUD requires requests for formula changes to be submitted by August 1, HUD may consider subsequent requests from Tribes that have been directly affected by changes resulting from other Tribes' requests submitted prior to the August 1 deadline. Subsequent requests received in prior FYs may be carried into future FYs if processing of such requests is not finalized in the current FY.

**Tetlin
Formula Area**

In accordance with 24 CFR §1000.302 Formula Area (1)... "Formula Areas are:"

1. Reservations for federally recognized Indian tribes, as defined by the U.S. Census;
2. Trust lands;
3. Department of the Interior Near-Reservation Service Areas;
4. Former Indian Reservation Areas in Oklahoma Indian Areas, as defined by the U.S. Census as Oklahoma Tribal Statistical Areas (OTSAs);
5. Congressionally Mandated Service Areas;
6. State Tribal Areas as defined by the U.S. Census as State Designated American Indian Statistical Areas (SDAISAs);
7. Tribal Designated Statistical Areas (TDSAs);
8. California Tribal Jurisdictional Areas established or reestablished by Federal court judgment; and
9. Alaska formula areas described in §1000.302 Formula area (4).

Formula areas may include additional geographic units if the Tribe demonstrates that it is providing substantial housing services in accord with 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services.

The geographic areas currently contained in your Formula Area are listed below.

Formula Area	Estimated Change in American Indian and Alaska Native (AIAN) population since 2020 Census
Tetlin ANVSA-Southeast Fairbanks Census Area, Alaska	-2.81%

A "+" next to a geographic area listed above indicates that the area overlaps with other Tribe(s). For overlapping areas, be sure to review the information in the next section, "Overlapping Formula Areas." Balance of county refers to any land in a county outside reservations or trust lands.

If any of these areas do not meet the above criteria or are not covered under 24 CFR §1000.302 Formula area (2), please make changes and corrections in Appendices B1 and B2.

If you wish to request other geographic areas beyond those identified above to be added to your Tribe's Formula Area, please complete the Formula Area table in **Appendices B1 and/or B2**. HUD will review this submission based on 24 CFR §1000.302 Formula area (2) & (3) and 24 CFR §1000.302 substantial housing services and determine whether to include these areas. HUD will make its judgment using as its guide whether this addition is fair and equitable for all Tribes receiving a formula allocation. Please note that if Formula Area expansions are approved based on substantial housing services, Tribes must continue to provide investment levels consistent with the definition of substantial housing services in accordance with 24 CFR §1000.302 substantial housing services (2).

Tetlin

Overlapping Formula Areas

**Only for Tribes with a "+" next to the geographic area
(see previous section on Formula Area)**

In cases where Tribes are overlapped, Needs data (population and household) for the entire Formula Area of all Tribes involved in the overlap are shared. If your Formula Area is overlapped, you are likely receiving a share of the Needs data for areas beyond those listed as being part of your Tribe's Formula Area.

Currently, your Tribe is sharing Needs data as a result of overlapping Formula Areas with the following Tribes:

None

Since FY 1998, HUD has used the most recent Bureau of Indian Affairs (BIA) Total Resident Service Area Indian Population (TRSAIP) data to proportionately divide the U.S. Decennial Census population data for Tribes with overlapping Formula Areas, unless the Tribes agree on a different allocation method.

The TRSAIP being used for your Tribe is: 109

If you wish to correct your Tribe's TRSAIP, please contact your BIA Area Office. Although BIA no longer manages the Labor Force Report, some offices continue to update TRSAIP figures upon request. Requests must be submitted to the Tribe's local BIA office, which may process them according to existing procedures. Once your update is approved by BIA, obtain a BIA certification with the updated TRSAIP number (see Appendix D to the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" available through the IHBG Formula Customer Service Center).

For Tribes in overlapping Formula Areas, the Needs data for all areas are combined and then divided among the Tribes. Under 24 CFR § 1000.326, Tribes can agree on how to share the data. If no agreement is reached, HUD uses TRSAIP data to allocate needs.

HUD recognizes that in some cases, TRSAIP data may be outdated, and BIA may not be able to update it for a Tribe on a case-by-case basis. HUD also recognizes that there may be cases where TRSAIP data is simply too outdated to equitably distribute Needs data among Indian Tribes in overlapping Formula Areas. In such cases, in accordance with 24 CFR § 1000.326, HUD reserves the right to make a decision on what data will be used to divide the funds among Indian Tribes in overlapping Formula Areas. HUD may choose an alternative data source to divide such funds among the Tribes with the overlapping Formula Areas, as it deems appropriate.

HUD will make the decision on what data will be used to divide the funds among the Indian Tribes by August 1.

Tetlin Tribal Enrollment & Formula Area Population Cap

In accordance with 24 CFR §1000.302 (5), Tribal Enrollment is used to cap AIAN persons in calculating Needs data. A cap is placed at twice Tribal Enrollment. If there is a "*" next to "AIAN persons" in the Needs section, your Tribe's data have been "capped."

The enrollment being used for your Tribe (or Alaska Village or Corporation) is: 281

If your Tribe's enrollment is different than what is listed above, please follow the instructions in Appendix D for correcting your Tribe's enrollment.

If a cap has been applied to your Tribe and you are providing housing services to more than twice as many AIAN members of other Tribes as members of your own Tribe, please follow the instructions in Appendix D for correcting your Tribe's Population Cap.

Please note that Formula Area Population Cap Adjustments must be submitted on an annual basis to the IHBG Formula Customer Service Center for approval. The requests must be postmarked, emailed, or faxed by August 1 of this year.

Tetlin Needs Data

Listed below are the data currently being used to calculate the Needs component of your Tribe's allocation based on your Tribe's "Formula Area" (see Formula Area section of this document).

The data used are from a special tabulation. This tabulation:

- Counts individuals reported as AIAN. The AIAN person count variable comes from the Decennial Census and is aged using Census population estimates. For the FY 2020 Decennial Census, data for reservations, trust lands, and remote Alaska will receive an undercount adjustment of 5.64%. For all other Needs variables, in FY 2027 HUD will use the 5-year rolling average from 2018 to 2022 ACS data. The ACS data will be updated every year. These data sources apply unless Tribes have approved Census Challenges in place. **No, your Tribe does not have an approved Census Challenge.**
- The FY 2027 estimate is calculated with the Needs component based on single race (AIAN alone) Census data and multi-race (AIAN alone and in combination with other race(s)) Census data. The amount of the allocation for each Indian tribe was determined to be the greater of the two resulting allocation amounts.

The growth adjustment factor used for your Formula Area is listed next to each Formula Area in the table listing your Tribe's Formula Area. After adjusting for population growth and undercount, sharing of Needs data among Tribes in cases of overlapping Formula Areas and application of the Population Cap (see note below), your Tribe's Needs component is based on **single-race data**. The Needs data are:

AIAN persons:	120
AIAN households with annual income less than 30% of median income:	30
AIAN households with annual income between 30% and 50% of median income:	10
AIAN households with annual income between 50% and 80% of median income:	0
AIAN households which are overcrowded or without kitchen or plumbing:	55
AIAN households with housing cost burden greater than 50% of annual income:	0
Housing Shortage (number of low-income AIAN households less total number of NAHASDA and Current Assisted Stock):	40

Note: If there is a "*" next to "AIAN persons" above, the Tribe's data have been "capped." This occurs when the AIAN population in the Tribe's Formula Area is greater than twice its total Tribal Enrollment.

If you think these data do not reflect your Needs:

- Check to see if the Formula Area, as listed previously, is correct for your Tribe. If the Formula Area is not correct, submit that correction.
- Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

- If you still disagree, you may wish to submit a Census challenge. To determine if submitting a Census challenge would be appropriate for your Tribe, please review the *FY 2027 Needs Data* above and the *FY 2028 Needs Data* on Attachment A for a full presentation on the Needs data assigned for your Tribe, and then read the document "*Challenging U.S. Decennial Census Data: Guidelines for the Indian Housing Block Grant Formula*" at: <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. Census challenges and documentation are required by 24 CFR § 1000.336 to be submitted by March 30, 2027, for consideration in computing the FY 2028 allocations.

Tetlin
Preliminary Allocation Amount

(Based on an estimated \$1,111,000,000 appropriation)

This is only a preliminary estimate to be used for planning purposes based on an estimated \$1,111,000,000 appropriation for the IHBG program. It will change based on corrections to the data used for all Tribes (any change in one Tribe's data affects the allocation for all Tribes) and/or actual FY 2027 appropriations.

FCAS Component ² :	\$0
Needs Component ³ :	\$358,597
24 CFR §1000.331 Phase Down Adjustments to Moderate Impact of Introduction of New Data Source ⁴ :	-\$14,214
24 CFR §1000.340 (b) Adjustments to achieve FY 1996 Base Year Amount ⁵ :	-\$2,207
Preliminary Current Year Allocation Estimate:	\$342,176
Adjustments for over- or under-funding in prior years ⁶ :	\$0
Initial Allocation Estimate:	\$342,176
24 CFR §1000.342 Undisbursed Funds Adjustment ⁷ :	To be Determined
24 CFR §1000.329 Minimum Allocation Adjustment ⁸ :	To be Determined
FY 2027 Final Allocation Estimate:	\$342,176

²If an "M" appears following the FCAS component, it means that the modernization subsidy on which FCAS was based was calculated using the alternative definition in 24 CFR §1000.316(b)(2), which states that "for Indian tribes with an Indian Housing Authority (IHA) that owned or operated fewer than 250 public housing units on October 1, 1997, the modernization allocation equals the amount of funds received under the assistance program authorized by Section 14 of the 1937 Act (not including funds provided as emergency assistance) for FYs 1992 through 1997." If an "A" appears, it means that your Tribe had an IHA that owned or operated fewer than 250 public housing units on October 1, 1997, but was entitled to a larger modernization amount using the original method of calculation (24 CFR §1000.316(b)(1)) and your allocation was adjusted to take this into account, as called for in 24 CFR §1000.340(a). If no "M" or "A" appears, the modernization subsidy was calculated using the original method described in 24 CFR §1000.316(b)(1).

³The Needs component includes adjustments needed to achieve minimum funding as called for in 24 CFR §1000.328. The minimum allocation in any FY to an Indian tribe under the Needs component of the IHBG Formula shall equal 0.007826% of the available appropriations for that FY after set asides. In this allocation, the minimum Needs allocation is \$86,947. To be eligible for the minimum allocation, an Indian tribe must receive less than \$200,000 under the FCAS component of the IHBG Formula for the FY, and must demonstrate the presence of any households at or below 80 percent of median income.

⁴In accordance with 24 CFR §1000.331, to minimize the impact of funding changes based on the introduction of a new data source, if, solely as a direct result of the introduction of a new data source, an Indian tribe's allocation under the Needs component of the formula is

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Control No. 2577-0218
(exp. 01/31/2027)

less than 90 percent of the amount it received under the Needs component in the immediate previous FY, the Indian tribe's Needs allocation shall be adjusted to 90% of the previous year's Needs allocation.

⁵ According to 24 CFR §1000.340, if a Tribe is allocated less funding under the formula than an IHA received on its behalf in FY 1996 for operating subsidy and modernization, its allocation is increased to the amount received in FY 1996 for operating subsidy and modernization.

⁶ Adjustments refer to corrections made to prior year formula allocations. Most are repayment agreements with HUD, usually for over-funding received by the Tribe in prior years due to late reporting of paid-off and conveyed FCAS. Funds recovered through repayments are reallocated among all Tribes in the following FY through the formula. Adjustments are also occasionally made as a result of HUD errors in entering Tribes' information or in calculating formula allocations.

⁷ In accordance with 24 CFR §1000.342, Tribes with an initial allocation amount of \$5 million or greater may be subject to a reduction depending on the amount they have in HUD's Line of Credit Control System (LOCCS) on the first day of FY 2027. The amount of the reduction would be redistributed among other Tribes in proportion to their Needs calculation.

⁸ In accordance with 24 CFR §1000.329, if carryover funds are available in any given year, HUD will hold the lesser amount of \$3 million or available carryover funds for additional allocations to Tribes with allocations less than 0.011547 percent of that year's appropriation. If the set-aside carryover funds are insufficient to fund all eligible Tribes at 0.011547 percent of that year's appropriations, the minimum total allocation shall be reduced to an amount which can be fully funded with carryover funds.

Public Reporting Burden Statement: *This collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of the requested information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 8210, Washington, DC 20410-5000. Do not send completed forms to this address. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. This agency is authorized to collect this information under Section 102 of the Department of Housing and Urban Development Reform Act of 1989. The information you provide will enable HUD to carry out its responsibilities under this Act and ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. This information is required to obtain the benefit sought in the grant program. Failure to provide any required information may delay the processing of your application and may result in sanctions and penalties including the administrative and civil money penalties specified under 24 CFR §4.38. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552). The information contained on the form is not retrieved by a personal identifier, therefore it does not meet the threshold for a Privacy Act Statement.*

FY 2027 Formula Response Form

Indian Housing Block Grant Formula Data

U.S. Department of Housing
and Urban Development
Office of Native American Programs

OMB Approval No. 2577-0218
(exp. 01/31/2027)

Attachment A: FY 2028 Indian Housing Block Grant (IHBG) Needs Data for the Tetlin

The Needs data which will be used to estimate your Fiscal Year (FY) 2028 Indian Housing Block Grant (IHBG) formula allocation are shown below:

Need Variable	Adjusted 2020 Decennial Census and 2019 to 2023 American Community Survey		Tribe Submitted Census Challenge (if applicable)	
	Single Race	Multi Race	Single Race	Multi Race
American Indian and Alaska Native (AIAN) persons*	120	122		
AIAN households with annual income less than 30% of median income	25	25		
AIAN households with annual income between 30% and 50% of median income	10	10		
AIAN households with annual income between 50% and 80% of median income	10	10		
AIAN households which are overcrowded or without kitchen or plumbing	55	59		
AIAN households with housing cost burden greater than 50% of annual income	4	4		

* The Decennial Census AIAN population data is adjusted for undercounts on reservation/trust lands and for remote Alaska. It is also adjusted for population change through FY 2024 based on the most recent Census county-level population projections.

Note: The Housing Shortage Needs variable is not shown because it is based on the sum of low-income households less the total number of Current Assisted Stock (CAS), and CAS is not provided on this document for review. However, it will be provided on your Tribe’s FY 2028 Formula Response Form.

The data above reflects the total Needs for your Formula Area prior to the application of the population cap. Therefore, these figures may be much higher than the amounts shown on your Tribe’s Formula Response Form. If you share Formula Area with other Tribes, the data shown are your share of the Needs data in your combined overlapping Formula Areas.

If you have an approved Census challenge it will be shown in the table above, and that data will be used unless the Tribe specifically requests a return to the standard Census data set prior to March 30, 2027. If you

FY 2027 Formula Response Form

OMB Approval No. 2577-0218
(exp. 01/31/2027)

believe you have an approved Census challenge but it is not shown in the table above, please contact the IHBG Formula Customer Service Center.

If you think these data do not reflect the Tribe's need:

91. Check to see if the Formula Area, as listed on your FY 2027 Formula Response Form, is correct for your Tribe. If the Formula Area is not correct, you may submit that correction no later than August 1, 2026, the deadline for the FY 2027 allocation, or August 1, 2027, the deadline for the FY 2028 allocation.
92. Check to see if the Formula Area for your Tribe overlaps that of another Tribe. If it does, you may wish to contact the IHBG Formula Customer Service Center to obtain detailed information on how the Needs data are being shared.
93. If you still disagree, you may wish to submit a Census challenge no later than March 30, 2027, for the FY 2028 IHBG allocation. If so, please review the guidelines in "Challenging U.S. Census Data: Guidelines for the Indian Housing Block Grant Formula" at <https://www.hud.gov/helping-americans/public-indian-housing-ihbgformula>. You are strongly encouraged to contact the IHBG Formula Customer Service Center before you undertake a Census challenge.

Should you have questions, please contact the IHBG Formula Customer Service Center at:
